

RESCUED BY PROCOVERY

For several years, the problems in my life were many,

And everywhere I looked for hope I could not find any.

Each day I was being bombarded by more than one trauma,

Thus, my life was in a state of constant and awful drama.

Procovery taught me that one day I would see the light,

And when I see it, my life would become very bright.

I have decided to stick with Procovery at all cost, Because it gave me, hope when all seemed lost.

I followed Kathleen's advice because it is very strong,

Therefore, I feel confident that I will never go wrong.

That's the way by which I have successfully Procovered,

And you can too even if your health cannot be fully recovered.
